

Certificate of Analysis

Page 1 of 1

Client: Contact:		Lab No: Date Received: Date Reported: Quote No: Order No: Client Reference: Submitted By:	3621998 08-Jul-2024 17-Jul-2024 81622 Meuanprae Techapitaktham	HGASP-1v1
-----------------------------------	---	--	--	-----------

Sample Type: Honey			
Sample Name:		24G04M15	
Lab Number:		3621998.1	
Glyphosate Analysis			
AMPA	mg/kg	< 0.010	
Glufosinate	mg/kg	< 0.010	
Glyphosate	mg/kg	< 0.010	

Glyphosate Analysis Report: This report may represent a subset of the requested tests.

Summary of Methods

The following table(s) gives a brief description of the methods used to conduct the analyses for this job. The detection limits given below are those attainable in a relatively simple matrix. Detection limits may be higher for individual samples should insufficient sample be available, or if the matrix requires that dilutions be performed during analysis. A detection limit range indicates the lowest and highest detection limits in the associated suite of analytes. A full listing of compounds and detection limits are available from the laboratory upon request. Unless otherwise indicated, analyses were performed at Hill Labs, 28 Duke Street, Frankton, Hamilton 3204.

Sample Type: Honey			
Test	Method Description	Default Detection Limit	Sample No
Individual Tests			
Glyphosate LC-MS/MS Analysis	Aqueous extraction, Analysis by LC-MS/MS. In-house. RLP Official Test 8.47.1.	0.010 mg/kg	1

These samples were collected by yourselves (or your agent) and analysed as received at the laboratory.

Testing was completed on 09-Jul-2024. For completion dates of individual analyses please contact the laboratory.

Samples are held at the laboratory after reporting for a length of time based on the stability of the samples and analytes being tested (considering any preservation used), and the storage space available. Once the storage period is completed, the samples are discarded unless otherwise agreed with the customer. Extended storage times may incur additional charges.

This certificate of analysis must not be reproduced, except in full, without the written consent of the signatory.
